NHS GRAMPIAN

POST OF CONSULTANT PHYSICIAN IN REHABILITATION MEDICINE

JOB DESCRIPTION

GENERAL

ABERDEEN AND GRAMPIAN

With a population of approximately 250,000 the city stands between the Rivers Dee and Don. This historic city has many architectural splendours and the use of its sparkling local granite has earned Aberdeen the name of the silver city. Recognised as the oil capital of Europe, Aberdeen nevertheless retains its old-fashioned charm and character, making it an attractive place in which to live.

Aberdeen enjoys excellent communication services with other British cities – eg flying time to London is just over one hour, with regular flights; road and rail links to all points north and south are excellent.

Many new housing developments have taken place in surrounding villages providing a wide choice of housing within easy commuting distance by car. Life in the city of Aberdeen has many attractions too.

Well known for its superb quality of life, Aberdeen enjoys first class amenities including His Majesty's Theatre, Music Hall, Art Gallery, museums and Beach Leisure Centre. Education facilities are excellent and in addition to regional education authority schools, there are two fee-paying schools, one international school and one co-educational college. All three cater for primary and secondary pupils. In addition the International School of Aberdeen offers an international education for all local and expatriate children from ages 3 to 18.

To find out more about Aberdeen, visit the Website at <http://www.aberdeen.net.uk/>

THE UNIVERSITY OF ABERDEEN

The University of Aberdeen is a fusion of two ancient universities: Kings College founded in 1495 and Marischal College, which dates from 1592. Thus until they joined in 1860, Aberdeen had two universities for over 250 years. The University maintains an outstanding record in scholarship and supports a high level of teaching and learning underpinned by a first class portfolio of research programmes and currently has 11,500 matriculated students.

The Institute of Medical Sciences is adjacent to the University medical school on the Forester hill site and brings together medical scientists and clinicians in a fully integrated research facility.

<http://www.abdn.ac.uk/>

ROBERT GORDON UNIVERSITY

The Robert Gordon University has earned wide recognition for its pragmatic approach to higher education both in Scotland and internationally.

For generations it has produced qualified professionals across a broad spectrum of careers in the arts, management, engineering, sciences, pharmacy, health and the professions allied to medicine.

Around 9,500 students study almost 100 full-time and part-time courses at undergraduate, post-experience and postgraduate levels.

The University is actively involved in applied research in a variety of fields and many short course programmes are being formulated to meet the growing needs of the community.

<http://www.rgu.ac.uk/>

HEALTH SERVICE IN GRAMPIAN

The health services in Grampian have undergone significant management changes in recent years. The former NHS Trusts were abolished and a new unified management structure, NHS Grampian, was established in April 2004. Three Community Health Partnerships (CHP) were created at this time - for Aberdeen City, Aberdeenshire and Moray. A further change followed uniting each CHP with its corresponding Social Services department into a Health and Social Care Partnership.

The Specialist Rehabilitation Services are part of the Aberdeen City Health and Social Care Partnership as a hosted service providing service to the residents of Grampian and in some elements of service the Northern Isles.

DESCRIPTION OF HOSPITALS

Aberdeen Royal Infirmary (ARI) is situated to the north-west of Aberdeen city on the teaching hospital site with the Medical School of the University of Aberdeen. This is the principal adult acute hospital of the Grampian area providing a complete range of medical and surgical specialities including General Medicine and allied specialities (Cardiology, Respiratory, Gastroenterology, Infectious Diseases, Neurology, Diabetes & Endocrinology, Haematology, Nephrology, Oncology, Dermatology, Blood Transfusion, Rheumatology and Geriatric Medicine), General Surgery and allied specialities (Cardiothoracic, Vascular, Orthopaedics, Neurosurgery, Plastics, Dental, ENT, Burns, Transplantation, Ophthalmology), ITU, A&E, Radiotherapy and Anaesthetics.

Aberdeen Royal Infirmary is also a major tertiary referral centre for the north and north east of Scotland in a number of specialities. The Royal Aberdeen Children's Hospital and the Aberdeen Maternity Hospital are also located on this site. The Emergency Care Centre incorporates G-Meds, NHS24 and A&E together, with acute medical wards/specialties including elderly care medicine in the floors above.

Woodend Hospital is situated two miles west of Aberdeen Royal Infirmary. It accommodates specialist rehabilitation, medicine for the elderly and elective orthopaedics departments. It consists of:

- Stroke Rehabilitation Unit – 34 beds
- Neuro-Rehabilitation Unit – 12 beds
- Orthopaedic Rehabilitation Unit – 20 beds
- Amputee prosthetic rehabilitation beds – 6 beds
- Older people rehabilitation – 16 beds
- Interim care/hospital based complex care – 20 beds
- Hospital at Home Service
- Elective orthopaedic Surgery
- ENT
- Outpatients department
- Grampian Mobility and Rehabilitation Centre (MARS) – prosthetics, orthotics, wheelchairs and specialist seating
- A well-equipped X-ray department which includes a MRI Scanner
- Modern well equipped physiotherapy, occupational therapy and speech therapy departments

Rosewell House- Has got geriatric medicine beds for frailty and rehab patients.

TITLE OF POST – CONSULTANT PHYSICIAN IN REHABILITATION MEDICINE

This post has evolved as a result of the retirement request of a member of the consultant team from end of June 2025. We envisage the appointee to provide rehabilitation medicine consultant input as in reach to the patients at Major Trauma Centre in ARI and medical consultant for the patients with brain Injury and chronic neurological conditions at the neuro rehabilitation unit (NRU) in Woodend Hospital which includes medical support for patients under AHP consultant at NRU.

There will also be sessional commitments at the outpatient clinics including for patients transitioning into adult services, patients with posture or movement disorders which includes managing patients with Botulinum Toxin injection and baclofen pumps.

The present job description is based on this for illustrative purposes. However, the existing consultant team is entirely flexible as to which services are provided by individual consultants; therefore, the job plan for this new post is negotiable with candidates.

REHABILITATION SERVICES IN GRAMPIAN

Grampian Specialist Rehabilitation Services already has several components, based around the Woodend hospital site.

1. Neuro Rehabilitation Unit (NRU)

This was the first purpose-built unit in Scotland for younger people with physical disability. It caters for patients with complex disabilities, mostly secondary to neurological disease. The commonest admission diagnoses are multiple sclerosis and acquired brain injury. There are 12 beds, into which approximately 80 patients are booked annually.

2. Stroke Rehabilitation Unit (SRU)

34 beds catering for adults of all ages in need of specialist stroke rehabilitation. Approximately 150 patients are admitted each year, most from the Acute Stroke Unit at ARI.

3. Orthopedic Rehabilitation Unit (ORU).

This unit has close links with the orthopedic trauma unit ARI, to ORU. It provides multidisciplinary rehabilitation, together with management of co-morbidities, for approximately 280 patients per year.

4. Amputee Prosthetic Rehabilitation beds in Links Woodend

6 beds for patients following an amputation who require prosthetic post-acute rehabilitation in an in-patient setting, largely from the vascular service at ARI.

5. Mobility and Rehabilitation Service (MARS)

This provides the North-East of Scotland with prosthetic, orthotic and rehabilitation engineering services, including wheelchairs and seating. The wheelchair, seating and prosthetic services also operate in the Orkney and Shetland islands.

6. Horizons Rehabilitation Resource Centre

Horizons is a weekday facility adjacent to the Woodend site, which operates as a unique joint venture between NHS and social care services within Grampian. It provides a community rehabilitation service and resource for individuals with complex disabilities requiring multidisciplinary and inter-agency approaches to rehabilitation.

7. Outpatient services

As well as general rehabilitation medicine clinics, we also operate specialist clinics in association with nursing and AHP colleagues:

- *ABI+ clinic*

This clinic provides medical support for patients with acquired brain injury whose situations are particularly challenging.

- *Progressive Neurological Disorder clinic*

This clinic provides dedicated AHP and medical assessment of outpatients with MS or other progressive neurological disorders. The clinic develops goal-based rehabilitation plans, and monitors patients in the community.

- *Posture and movement clinic*

This service provides interventions for patients with complex postural and mobility problems. Some patients also attend for specific procedures, such as neuromuscular blockade and management of/assessment for intrathecal baclofen pumps.

- *Chronic pain and Functional symptoms clinic*

This clinic supports rehabilitation of patients with pain, especially associated with neurological conditions or functional symptoms.

- *Major trauma follow up clinic*

This clinic, with the trauma coordinator and psychologist, follow up patients discharged from the major trauma centre (other than those in specialist neurorehabilitation)

- Prosthetic rehabilitation clinic- to provide rehabilitation support for amputee patients.

- Long Covid rehabilitation clinic- This is a new clinic for patients with Long Covid related symptoms.

Each of the components of the rehabilitation service is characterized by close interdisciplinary working

STAFFING WITHIN GRAMPIAN SPECIALIST REHABILITATION SERVICES

Management Staff:

The chief operating officer of Aberdeen City Health and Social Care Partnership is Ms Fiona Mitchelhill and lead for specialist rehabilitation service is Ms Julie Warrender and service manager is Ms Vicky Smith. Unit clinical director is Dr Caroline Howarth.

Free car parking at Woodend hospital

DUTIES

Major trauma

Provision of rehabilitation medical leadership working with MDT at the Major Trauma Centre (MTC) in Aberdeen Royal Infirmary. This includes contribution to the continuing development of the MTC, and to the North of Scotland Major Trauma Network.

Specialist Rehabilitation wards

Consultant leadership of allocated beds within the neurorehabilitation unit. There isn't a current vacancy within the other rehabilitation services, but for candidates who bring specialist skills or interests in these areas the department will be open to negotiation of role reallocation.

The post holder may also be asked to provide medical supervision of AHP-led beds, and prospective cover of consultant colleagues within the team during planned leave and other short term absences.

There is currently no on-call commitment.

Outpatients / community

Provision of consultant-led outpatient clinics at Woodend Hospital, plus domiciliary visits as required. Support of community rehabilitation services, such as Horizons.

Teaching and Training

We contribute to the undergraduate medical course at the University of Aberdeen. We have a postgraduate training number in the Higher Specialist Training Programme for Rehabilitation Medicine, as well as having trainees at foundation and GPST level.

We also contribute to the postgraduate medical programme at Aberdeen Royal Infirmary, as well as operating a dedicated multidisciplinary rehabilitation in-service programme at Woodend Hospital.

The successful applicant will contribute to the organisation and content of these various activities, and may be asked to serve as an educational supervisor. He/she is likely to be accorded status of honorary clinical lecturer in medicine by the University of Aberdeen

Clinical Governance

The post holder will be involved in a range of governance activities in the Specialist Rehabilitation Services, including audit, case reviews and quality improvement work.

Management

In due course, the successful candidate will contribute to the overall management of Grampian Specialist Rehabilitation Services. This will not be an immediate requirement.

QUALIFICATIONS AND REGISTRATION

Essential

Primary medical degree
MRCP (UK), MRCS, MRCPGP, MRCPsych or equivalent

CCT in Rehabilitation Medicine, or be within 6 months of CCT date at the time of application. Applicants who have CCT in Neurology, stroke medicine or medicine for the elderly will also be considered.

Please note CESR (Certificate of Eligibility for Specialist Registration) route doctors are only eligible to apply for a substantive consultant post once CESR is awarded.

Desirable

Additional qualification such as MD or PhD or Diploma of European Board of Physical and Rehabilitation Medicine

Experience in posture movement or spasticity management with Botulinum Toxin and Baclofen pumps.

Experience of major trauma rehabilitation

Full registration with a licence to practise with the GMC is mandatory at time of appointment.

ANNUAL LEAVE

The appointee is entitled to 6 weeks, in addition to statutory holidays.

STUDY LEAVE

A practitioner appointed to the grade is entitled to continuing education, subject to the conditions of service. The NHS Grampian study leave policy is 30 days study leave in each fixed three year period. Approximately one hour per week is allocated for internal CPD.

Full details are available from the Human Resources Hub at Westholme, Woodend Hospital, Eday Road, Aberdeen.

RESEARCH AND DEVELOPMENT

NHS Grampian aims to maintain the tradition of clinical excellence and research activities. The clinical staff are encouraged to exchange ideas within the national and international research community. We work in an environment where people are looking to innovate and are aware of, and contribute to, developments within their specialties. NHS Grampian has a Research and Development Directorate to prioritise and stimulate research and development within its fields of interest, complementing the research strategies of the Universities and research Institutes in the area.

CONSULTANT IN REHABILITATION MEDICINE
REF EG226918

CONDITIONS OF APPOINTMENT

1. The appointment will be made by the Board on the recommendation of an Advisory Appointments Committee, constituted in terms of the National Health Service (Appointment of Consultants) (Scotland) Regulations, 1993 - NHS Circular 1993 No 994 (S.140) which will include University representatives. Any person suitably qualified and experienced who is unable for personal reasons to work full-time, will be eligible to be considered for the post.
2.
 - (a) The whole-time salary, exclusive of any distinction award, will be a starting salary of £111,430 - £148,064, progression of salary is related to experience. Appendix 8 of the contract sets out the code of conduct for private practice which applies to all interested parties. In general consultants will be free to undertake private practice as long as this is undertaken out with the agreed job plan and employers are informed, in writing, of private commitments. While employers have discretion to allow some private practice to be undertaken alongside a consultant's NHS duties, such provisions of private service should not prejudice the interests of NHS patients or disrupt NHS services.
 - (b) Job plans must be agreed in association with the appropriate general manager and clinical managers; for signature on behalf of the chief operating officer. Changes will be discussed and agreed by these officers and yourself in line with clinical grouping service needs and changes in service requirements as well as at annual review.
3. The person appointed will be expected to take part in undergraduate and postgraduate teaching programs. You will therefore be awarded appropriate Aberdeen University honorary status.
4. Consultants are expected to undertake research and development in their own field and to link with the University research areas.
5. Day to day arrangements for undertaking the specified duties of the post will be made in consultation with the head of service, other consultants in the department and with the Board.
6. The person appointed will have a continuing responsibility for the care of patients in his or her charge and will undertake the administrative duties associated with the care of his or her patients and an appropriate share in the running of the clinical department.
7. The person appointed will act as an adviser to the Board in Rehabilitation Medicine.
8. The person appointed will be expected to undertake domiciliary consultations as may be required by the Board.

9. The person appointed will be expected to undertake advisory visits to hospitals in Grampian, predominantly this will be ARI but may occasionally include Orkney, Shetland and Tayside.
10. You may exceptionally be required to undertake duties at other hospitals in the Grampian area or other Health Board areas and at hospitals in Orkney, Shetland and elsewhere for which service agreements would be arranged.
11. The person appointed may undertake the diagnosis and treatment of patients occupying accommodation made available under Sections 57(1), 57(2) and 58 of the National Health Service (Scotland) Act 1978 at the above hospitals insofar as the patients have not made private arrangements for such treatment.
12. The Board, in partnership with the BMA local negotiating committee has a study leave policy for all career grade medical and dental staff policy available on request from the Human Resources Department.
13. The appointment will be superannuable if the person appointed so chooses. He or she will be subject to the regulations of the National Health Service superannuation scheme and the remuneration will be subject to deduction of contributions accordingly, unless he or she opts out of the Scheme.
14. The private residence of the person appointed should not normally be more than 10 miles by road from their principal place of work unless otherwise agreed locally. They must be contactable by phone.
15. NHS Grampian is legally liable for the negligent acts or omissions of employees in the course of their NHS employment. Medical staff are however advised to ensure that they have defense cover for activities not covered by the Board's indemnity.
16. The officer appointed will be required to be registered on the General Medical Council's specialist register.
17. As a result of guidance issued by the Scottish Office on "Protecting health care workers and patients from hepatitis B" NHS Grampian is required to:-

Ensure health care workers who may be at risk of acquiring hepatitis B from a patient are protected by immunisation.

Protect patients against the risk of acquiring hepatitis B from an infected health care worker. Due to the nature of this post, any offer of appointment will be conditional upon the successful applicant either:-

- Undergoing a process of screening/immunisation/monitoring in accordance with the Board's Policy and Procedure, or
- Producing acceptable documentary evidence that he/she is not an infective risk to others.

In the event that he/she is an infective risk to others or if he/she fails to comply with the above requirements, the conditional offer of appointment will be withdrawn.

As a condition of his/her subsequent employment in this post he/she is also required to undergo further immunisation and monitoring at the intervals specified by the Board's Occupational Health Service in order to boost/maintain his/her level of immunity. Should he/she become hepatitis B e antigen positive and therefore an infective risk to others at any stage in the future the appointment will be subject to review in accordance with the Board's agreed Procedure for dealing with such situations where the post holder is involved in "Exposure Prone Procedures". This review may result in the post holder having to alter his/her clinical exposure to remove risk to patients and others. In circumstances where this is not a practical option, it will be necessary to provide industrial compensation for this prescribed industrial disease prior to the post holder leaving the Board's employment.

18. The appointment is made subject to satisfactory fitness for employment. The candidate will therefore be required to complete a pre-employment health screening questionnaire and may/will subsequently be required to attend for health screening.
19. Termination of the appointment is subject to three months' notice on either side.
20. The Board is required to instigate a check to be made with the Disclosure Scotland Office for any convictions recorded before an offer of appointment can be made (Rehabilitation of Offenders Act 1974 amended 1985 and 1986) and (Disclosure of criminal convictions of NHS staff with substantial access to children 1989).

NOTES TO CANDIDATES

Canvassing in connection with appointments is not permitted but this does not debar candidates who wish from visiting the hospitals concerned.

Further information can be obtained and an appointment to view the Department arranged by contacting Dr Santanu Sarkar, Consultant and clinical lead for rehabilitation medicine at 01224 556582 email: santanu.sarkar@nhs.scot Alternatively contact Ms Vicky Smith, Service manager, Grampian specialist rehabilitation service at 01224 556540 or vicky.smith30@nhs.scot

Apply for this post by visiting www.medicaljobs.scot.nhs.uk and search for Ref No quoted above. Closing date: 4 December 2025

NHS Grampian has a process of induction for all newly appointed consultants. You will have a local department induction and orientation led by your head of service. In addition we believe it important that you have an opportunity to meet with key personnel in NHS Grampian. This allows them to explain their role in the organisation and to discuss key information on the organisation and strategic planning processes we operate. We believe it important that all newly appointed consultants even if they have previously worked in Grampian should have this opportunity once appointed to a consultant post. Your head of service along with you will be responsible for ensuring this is undertaken. Heads of service are supplied with the names of those you should meet.

NHS Grampian are obliged to bring to your notice that the Rehabilitation of Offenders Act 1974 provides for many people who have been convicted of certain criminal offences, the opportunity to have no need to refer to any conviction or circumstances relating to it in the course of daily lives. Certain convictions can, therefore, be regarded as “spent” after the lapse of a period of years under the terms of the Act. The National Health Service employment for which you are applying, however, has been excluded from the provisions of the Act and you are, therefore, required not to withhold information about convictions which for other purposes are “spent” under the provisions of the Act. In the event of employment, any failure to disclose such convictions could result in dismissal or disciplinary action by the Board. Any information given, however, will be completely confidential and will be considered only in relation to the post to which this job description refers.

There is a day nursing facility for children of staff employed by NHS Grampian. ‘Little Acorns Day Nursery’ which has been specially designed can accommodate 24 children between the ages of 6 months and 5 years. Please contact the nursery manager on (01224) 557828 for further details.

In the interest of health promotion we operate a **no smoking policy**

Appendix A
