

## **NHS Lothian - Pharmacy Services**

NHS Lothian Pharmacy Services provide a vast and diverse range of services. Adoption of a systematic approach to clinical pharmacy has enabled the pharmacy service to develop extensively in the last few years.

**PHARMACY TECHNICIAN – BAND 5  
CARE OF THE ELDERLY/PSYCHIATRY  
MIDLOTHIAN COMMUNITY HOSPITAL  
0.5 WTE (18.75 HOURS)  
(£25,100-£31,649)**

An enthusiastic pharmacy technician is required to support clinical pharmacy and dispensary services based at Midlothian Community Hospital, Bonnyrigg

Midlothian Community Hospital provides services to elderly patients, including admission, assessment and rehabilitation and to psychiatry of old age patients. The postholder will support a well-established, high quality clinical pharmacy service to this group of patients. Key areas for patient focused pharmaceutical care include medicines reconciliation, support of once stop system, provision of seamless care and patient counselling. This is a new post due to new wards opening in the hospital.

The successful provision of all these services relies on working within a multidisciplinary team of which pharmacy is a valued member. The postholder will also have close links with other members of the pharmacy teams in NHS Lothian.

If you are enthusiastic, work well as part of a team and have the vision to develop the pharmacist's role, then this post will suit your skills.

If you are enthusiastic, work well as part of a team and have the vision to develop the pharmacy technician's role, then this post will suit your skills.
