

# Consultant in General Adult Psychiatry

## Candidate Information Pack

# Welcome

Dear Candidate,

Thank you for taking the time to read more about who we are and the opportunity we have on offer to join our team.

NHS Dumfries and Galloway is one of 14 territorial Health Boards in Scotland covering the region of South West Scotland.

Our District hospital and Mental Health hospital are based in Dumfries with our smaller community hospital with some acute services based in Stranraer. In addition to this we have several smaller cottage hospitals.

The District hospital (DGRI) has been purpose built to suit the needs of the staff and patients and is one of the only NHS hospitals in the UK to have all single en-suite rooms which has seen an increase in recovery time.

One question I often get asked is, why would a medic choose to come to a small district hospital or our small community hospital?

My top three answers to that would be:

- The teams are smaller which gives you more of a sense of community within the workplace, where you are known by name and supported more in your role.
- We have heavily invested in front line equipment and technology meaning you can get on and do the job you love.
- We have a strong nursing and advanced practitioner workforce to help support us with excellent twice daily huddles in the acute setting to problem solve.

Our medical community across the Health Board have opportunities to develop their skills as we are committed to supporting CPD and development of new skills. We have created a culture of shared learning and best practice with weekly lunch time Journal clubs and educational talks led by our own staff or guest speakers. Our education centre is one of the centres to be fully kitted out and include a clinical skills and observation /control room.

One of the key achievements and something we do well at D&G is the introduction of new models of workforce to make a sustainable future for our community. Recently we have introduced the new SCOTGEM rural medicine programme which has attracted a new talent of medical students to the area as well introducing a Clinical Development Fellows programme where we have added an additional 20+ staff giving additional support at lower to middle grades.

Whatever your specialty we hope that you will take the time to come and visit us and see for yourself why working at D&G is the right choice for you.

Kind regards,

*Ken*

*Ken Donaldson,  
Medical Director,  
NHS Dumfries & Galloway*

# Job Description

## JOB PURPOSE

NHS Dumfries & Galloway provides mental health services to a total population of 150,000 in a beautiful rural area of South West Scotland. We are seeking to recruit a Consultant General Adult Psychiatrist who will be responsible for in-patient work for a locality Community Mental Health Team (CMHT). On call is shared with across the consultant group on a 1 in 11 basis with prospective cover.

The service includes in-patient beds at Midpark Hospital, Dumfries, which is a state of the art, purpose-built hospital opened in 2012, and community services across the region provided by five generic locality community mental health teams, and specialist teams for addictions and intellectual disability psychiatry. There are additional services for primary care mental health, general hospital liaison, eating disorders and forensic psychiatry. There is strong multi-disciplinary and multi-agency working across the service. The post-holder will be based at Midpark, with clinical work split between hospital and community. The Wigtownshire CMHT is based at Innistaigh, a dedicated community service site in Stranraer, 75 miles west of Dumfries. Innistaigh is adjacent to the Galloway Community Hospital and is well linked to A&E there.

Midpark Hospital is the centre for local audit, research and teaching activities. Strong academic links exist between the Hospital and Dundee and Edinburgh Universities. NHS Education for Scotland and the Scotland Postgraduate Deanery oversee core and higher specialist training in psychiatry, with psychiatric, GP and foundation trainees placed within the service. Medical students are attached from Dundee, Edinburgh and the Scottish Graduate Entry (ScotGEM) medical programmes.

Dumfries & Galloway is an area of outstanding natural beauty with considerable local amenities. Although a pleasant rural area, Edinburgh and Glasgow are each only 75 miles from Dumfries town. The climate is generally the mildest and most pleasant in Scotland.

The applicant should have full GMC registration including specialist registration and a licence to practise, MRCPsych (or equivalent), approval under s. 22 of the Mental Health (Care & Treatment) (Scotland) Act 2003 as an Approved Medical Practitioner (or be eligible to complete the relevant training as a priority), and the ability to travel independently of public transport.

## THE DEPARTMENT

### MENTAL HEALTH SERVICES

Mental health services in Dumfries & Galloway are managed within the Mental Health Services Directorate (which includes intellectual disability, specialist drug & alcohol, rehabilitation, forensic, and liaison services as well as generic community and hospital services for working age and older adults, and prison healthcare) which comes under the NHS Dumfries & Galloway / Dumfries & Galloway Council Integrated Joint Board. Child & Adolescent Mental Health Services are managed within the Women's & Children's Directorate but there are professional links with mental health services as a whole.

Adult services are based around Community Mental Health Nursing Teams which are supported by other disciplines, including psychiatry, occupational therapy and clinical psychology. There are good working relationships with social work and third sector providers. There are five teams, covering five localities, and both working age and older adult populations.

Acute beds are in Midpark Hospital: Ettrick and Nithsdale wards (mainly for patients under 65 years old, aligned to locality) – 30 beds; Glencairn ward (mainly for patients over 65 with functional conditions) – 12 beds; Cree ward (dementia assessment) – 16 beds; Balcary ward (IPCU) – 6 beds, and Dalveen ward (rehabilitation, including functional and organic rehab., and low secure step-down beds) – 8 beds plus 3 supported self-care flats.

CMHTs provide a crisis and home-based treatment service as part of their function, offering 24/7 access to all age groups for emergency assessment, A&E assessments and home-based treatment (where admission might otherwise be needed). There is currently a review underway of how community services are configured, and the post-holder would be involved in this service planning process.

## CURRENT SERVICES – MEDICAL STAFFING

Medical staff in mental health services and their specialties are as follows:

Dr Sakib Ahmed (locum)	Forensic & Intellectual disability psychiatry (Undergraduate Lead / ECT depute)
Dr Graeme Bhatti	Assoc. Medical Director, Forensic & ID psychiatry
Dr Katharine Coulthard	Adult psychiatry
Dr Robert De Mey (locum)	Old age psychiatry
Dr Alan Duncan	Old age psychiatry (Clinical Lead – old age)
Dr Norberto Fernandez Rodriguez (locum)	Adult psychiatry & rehabilitation
Dr Fraser Gibb	Old age psychiatry & ECT
Dr Luqman Khan (locum)	Addiction psychiatry
Dr Pedro Larisma	Addiction psychiatry
Dr Shiona Macdonald	Eating Disorders
Dr Esther Mackenzie	Adult psychiatry

Dr Nicholas Walker	Adult psychiatry (Clinical Lead – general adult)
Dr Mehrdad Khorsand (locum)	Adult psychiatry
<i>Dr Christopher Andrews</i>	<i>CAMHS</i>
<i>Dr Jennifer Halliday</i>	<i>CAMHS (Clinical Lead - CAMHS)</i>
<i>Dr Anja Weltin</i>	<i>CAMHS</i>
Dr Mona Chaturvedi	Specialty Doctor old age
Dr Betsy Jacob	Specialty Doctor adult
Dr Mary Livingston	Specialty Doctor adult

## **THE POST**

This post is to provide specialist psychiatrist input to the Wigtownshire locality team and take clinical responsibility for in-patients mainly from that locality. The post includes one programmed activity session (PA) for supporting professional activities.

On call duties, non-resident providing mainly complex telephone advice and leadership to training grade medical staff is shared across the consultant group on a 1 in 11 basis with prospective cover.

An indicative job plan is included with this job description. An exact job plan for the post-holder will be negotiated with the successful applicant on appointment, taking account of special interests and the needs of the wider service.

Although full time, any candidate wishing to work part time would also be considered.

## **TRAINING GRADE DOCTORS**

There are eleven junior doctor posts with one Foundation Doctor, four GP Specialty Trainees and six Core Psychiatry Trainees. At present, in addition, there is one Clinical Development Fellow post. Psychiatry trainees rotate within the service and elsewhere in the West of Scotland. Higher Trainees may be attached in General Adult Psychiatry.

## **ADMIN SUPPORT**

The post-holder will have access to such general secretarial support as is required for the post. There are currently five full time medical secretaries who support Consultants, Specialty Doctors and trainees in adult and older adult mental health services.

## **QUALIFICATIONS**

The post-holder must have full GMC registration including specialist registration, with a licence to practise. Membership of the Royal College of Psychiatrists (or equivalent) is required. Approval (or eligibility for approval) as an Approved Medical Practitioner under s. 22 of the Mental Health (Care & Treatment) (Scotland) Act 2003 is also essential.

## **DISCLOSURE SCOTLAND / PROTECTION OF VULNERABLE GROUPS**

This post is in the category of “Regulated Work” and therefore requires a Disclosure Scotland Protection of Vulnerable Groups (PVG) scheme enhanced membership.

# Staff Benefits

At NHS Dumfries & Galloway, we want to give a warm welcome to new colleagues and aim to provide support to those moving to the region.

## Relocation Package

We offer a supportive and flexible package to help with the cost of relocating. We also have a dedicated team who can offer advice and guidance on everything from activities and attractions in the local area; to travel, housing, education and employment opportunities for family members.

## Accommodation

Single accommodation is available for the first 12 weeks of employment.

## International Candidates

We are a Tier 2 sponsorship employer and as such, welcome applications from international candidates.

We are committed to supporting colleagues to fully integrate into the society of our region. We want to support staff to feel part of the community – this means in their personal life, as well as at work.

There are various community groups, social gatherings and opportunities to meet other people within our region. For example, the Dumfries Multicultural Association is an active group in the local area. Furthermore, you will find activities and events in the towns and villages of Dumfries & Galloway are very welcoming to new members of the community.
