

NHS EDUCATION FOR SCOTLAND

JOB DESCRIPTION

1. JOB DETAILS	
JOB REFERENCE	
JOB TITLE	National Training Programme Director for Clinical Pharmacology- Scotland Deanery
DEPARTMENT AND LOCATION	base location flexible
IMMEDIATE MANAGER'S TITLE	Associate PG Dean for Medicine
2. JOB PURPOSE <p>Each programme has a designated Training Programme Director (TPD). As TPD you will have responsibility for managing specialty training programme(s) provided for doctors holding the following appointments: <i>specialty registrar (StR)</i>; core trainees (CT) and <i>locum appointment for training (LAT) doctors</i>.</p> <p>TPD's should be a consultant and will be responsible to the appropriate Associate Postgraduate Dean (APGD) for the delivery of training within the programme, according to the standards set by the GMC and relevant Royal College or faculty. You will have a close relationship with the relevant DME(s) to ensure quality management of their training programme as set out in the NES Quality Management Framework. You may also combine the role with that of an educational and/or clinical supervisor.</p> <p>The demands on TPD's are likely to vary between specialties and the guidance below should be interpreted flexibly.</p>	
3. DIMENSIONS <p>The Scotland Deanery is responsible for managing training and training programmes across the four Scottish regions. Staff in the regional teams work closely with the wider NHS through the regional workforce planning groups.</p> <p>Training programmes within the Scotland Deanery are organised either regionally or national/multi-regionally depending upon the specific specialty and the number of trainees within a programme. All programmes are overseen by at TPD responsible, through the APGD, to the postgraduate dean. Support for trainees and TPDs is provided by the Training Management staff.</p> <p>The quality of postgraduate training is overseen through the NES quality team who will liaise with the TPD about any issues.</p> <p>The Scotland Deanery provides dedicated trainee support in the areas of performance support, career management and less than full time training.</p>	

4. ORGANISATION CHART

5. ROLE OF THE DEPARTMENT

The Scotland Deanery was created on 1st April 2014 from the four previous Deaneries in Scotland.

The Scottish model allows our four regions to work together as part of the Medical Directorate of NES, ensuring equity of recruitment and consistency in managerial approach. National policies and working committees, such as Specialty Training Boards, mean that Scotland can deliver a consistently high quality approach, and allows us a stronger voice on a UK basis.

Our Lead Dean Directors provide strategic leadership and direction for postgraduate medical education and training to meet the requirements of the GMC. They take advice from Royal Colleges and Faculties to assist them. In doing so, they ensure consistent regional delivery of national and NES policies.

The Medical Directorate supports all activity via four workstreams: Training Programme Management, Quality Management, Professional Development, Strategic Planning and Directorate Support. Each workstream is led by a team of senior managers and Lead Dean Directors.

To achieve high quality training in Scotland, the Medical Directorate work closely with Scottish Government and NHS service colleagues (medical directors and directors of medical education)

6. KEY AREAS OF RESPONSIBILITY: KEY RESULT AREAS / MAIN TASKS

- Ensure that all trainees receive a comprehensive induction into the specialty/and programme and to ensure that any subsequent induction to placements within the programme takes place in a timely manner;
- Ensure the allocation of trainees to appropriate placements and the coordination of rotational arrangements within their programme and across Scotland is agreed by the agreed Code of practice timescale;
- Take into account the collective needs of trainees in the programme when planning training for individual trainees;
- Participate in local, and where appropriate national, arrangements (including Specialty Training Committees (STCs) to support and advise on the management of the specialty training programme within the deanery. Work with delegated College representatives (e.g. college tutors, regional advisors) and local educational leads to ensure that the programme delivers the specialty curriculum and enable trainees to gain the relevant competences, knowledge, skills, attitudes and experience;
- Play a part in marketing the specialty, where there is a need to do so, to attract appropriate candidates e.g. coordinating taster sessions during foundation training, career fair representation, or liaison with specialty leads and with Royal Colleges/Faculties;
- Engagement with trainees' portfolio on regular basis;
- Coordinate and participate in Annual Review of Competence Progression process;
- Completion of SOAR processes for trainees in the programme
- Be trained in equality and diversity to promote equality of opportunity and eliminate unfair discrimination;
- Provide support for clinical and educational supervisors within the programme;
- Provide and validate programme information to support NES information services;
- Help the Lead Dean Director manage trainees who are require additional support through advising educational supervisors in their assessments and in identifying remedial placements where required;
- Participate in personal development planning and the annual appraisal process with NES. Be familiar with the deanery policy for careers management, providing access to this in-conjunction with educational and clinical supervisor's pastoral support. Have career management skills (or be able to provide access to them);
- Engage with the national recruitment and interview process;
- Participate in or provide advice to NES Specialty Training Boards (STBs);
- Attend relevant national meetings where possible;
- To provide externality to other regions
- Be aware of NES study leave policy and authorise appropriate study leave funding while remaining within the programme study leave budget
- Support the delivery of quality management and continuous educational improvement of their programmes in the Scotland Deanery to meet the standards set by the General Medical Council (GMC), participate and contribute to the NES/GMC quality control management assurances process including visits, provide and validate programme information to support the NES information services. Respond to requests from the quality management team to provide information and data, including the annual report

7. USE OF PHYSICAL RESOURCES

- Use of IT equipment and advanced keyboard skills
- Daily use of a wide range of software: Microsoft Office applications - Word, Excel, PowerPoint, and NHS net online services;
