SICK PAY SCHEME

The Conditions of Service provide for operation of a scheme related to length of service. Staff are required to keep their line manager informed of the likely duration of absence.

Dependant on your meeting the necessary criteria you may have entitlement to Statutory Sick Pay or DSS Sickness Benefit. Staff do not need a medical certificate for the first 3 days of sickness absence. For sickness absence of 4 to 7 days, a self-certificate (DSS form SC2) is required. These are available from GP practices and line managers and the self-certificate must be returned to the line manager within 7 days of the first day of incapacity. From the 8th day of sickness absence the member of staff should go to their General Practitioner for a medical certificate, which should be sent to their line manager without delay. As the medical certificate runs out, the member of staff should obtain another one if they remain unfit for work and again send to their line manager.

If this sickness reporting procedure is not followed, then the staff member would be considered to be 'absent without leave' and would therefore not receive any pay or sick pay for that period of absence.

MEDICAL FITNESS

All prospective members of staff are asked to submit a confidential health questionnaire to the Occupational Health Service. On the basis of this, they may be passed fit, or an appointment for further information or screening may be required. All entrants must be certified medically fit and employment is conditional on such certification. All appointees are expected to comply with NHS Highland's Immunisation Policy.

Those posts classified as Exposure Prone Procedures appointments are dependent on satisfactory proof of immunity or freedom from Hep B infection prior to appointment.

CONFIDENTIALITY

In the course of your duties you may have access to confidential material about patients, members of staff or other health service business. On no account must information relating to patients be divulged to anyone other than authorised persons - for example medical, nursing or other professional staff, as appropriate, who are concerned directly with the care, diagnosis and/or treatment of the patient. If you are in any doubt whatsoever as to the authority of a person or body asking for information of this nature you must seek advice from your superior officer. Similarly no information of a personal or confidential nature concerning individual members of staff should be divulged to anyone without the proper authority having first been given. Failure to observe this rule will be regarded by your employers as serious misconduct, which could result in serious disciplinary action, including dismissal, being taken against you.

The unauthorised disclosure of official business under consideration by NHS Highland or one of its Committees by an employee is also regarded as a breach of confidence and may lead to disciplinary action.

DISCLOSURE SCOTLAND (PROTECTING VULNERABLE GROUPS – PVG SCHEME)

Appointment to this post will be made subject to satisfactory screening by Disclosure Scotland. This means that even minor convictions, no matter when they occurred will be included in the Scheme Record. It may also contain non conviction information held locally by the police, where this is considered relevant to the post.

Following the selection interview only the "successful" candidate will be subject to a check by Disclosure Scotland to verify details previously supplied by him/her. Offers of appointment will be made subject to satisfactory Disclosure Scotland screening.
